COLOR PALETTE

Color is an integral part of brand identity.

Consistent use of the color palette will not only reinforce the cohesiveness of the brand, but color also serves a psychological purpose by communicating a certain feeling to your audience.

COLOR USAGE

CLEAR SPACE

To ensure legibility, always keep a minimum clear space around the logo.

This space isolates the mark from any competing graphic elements like other logos or body copy that might conflict with, overcrowd, and lessen the impact of the mark.

These guidelines are fairly flexible and should allow for enough creative freedom to use the logos as you see fit while still making sure the brand looks its best across all applications.
